

Audiology & Speech/Language Pathology Department
Cochlear Implant Team

The **Audiology Department at The UCSF Benioff Children's Hospital Oakland is looking for a fabulous SLP to join our dynamic, pediatric hearing healthcare team!** This individual will serve on a **multidisciplinary team**, working with hearing aid users as well as cochlear implant candidates and recipients. They will have the opportunity to participate in **Audiology + LSL co-treats**, conduct **evaluations, in-person visits, and teletherapy**. Our team is involved with an exciting, multi-center **research** study examining the effectiveness of teletherapy to address disparities in language outcomes for young D/HH children. There's never been a better time to join the team at UCSF Benioff CHO!

Qualified candidates must have a minimum of **3-5 years of experience. Bilingual (English/Spanish)** strongly preferred. Early intervention using a **caregiver coaching model and teletherapy** experience a must. CA SLP license and ASHA CCCs required. LSLS certified providers preferred.

This is a .8 FTE position (32 hours per week), with excellent benefits and competitive salary. The hospital is located in the "East Bay" (San Francisco Bay Area) and team members see patients at both the Oakland and Walnut Creek locations.
