

Practice Exercise #4

Your screening capacity will be increased by accessing and using available tools that help you to track children and communicate with parents and health care providers. This exercise will help you gain familiarity with locating and using valuable resources on the kidshearing.org/ImplementingPureTone page that support the ongoing improvement of your Pure Tone screening program.

View **Pure Tone Video Tutorial Modules 10 – 11**.

Identify the **Implementation Tools** column on the web page and complete the steps below.
