INTRODUCTIONS

- The Past – Janet DesGeorges
- The Present – Curt Leitz
- The Future – Maria Rodriguez

“The reason people find it so hard to be happy is that they always see the past better than it was, the present worse that it is, and the future less resolved than it will be” – Marcel Pagnol
WHERE HAVE WE COME FROM?
WHY LOOK BACK?

- See how far you’ve come
  - Helps you when you are discouraged with present day crises
  - You can help others who are further behind the path than you

- Learn from the past
  - ‘New’ is not always better
  - Don’t repeat the same mistakes

- Longingly look back on the “good ‘ole days”
  - “I used to be thinner”
BACK IN THE DAY...

- Parent Support
  - Informal
  - No real networks
  - No ‘peer’ support to those offering support to other families
  - No real training
  - Family Support undefined in EHDI systems

- Topics *NOT* on the table -
  - Child Abuse and Neglect - Incidence in the population
  - Meaningful involvement of Deaf and Hard of Hearing Adults
Stats from the Past….

...Going back even further (40 years!)
...an interview with Irene.....

“Whatever happened to people helping people?”

...Only one professional in the early years that they got some feeling of emotional support from who said, “Some day there will be something for her. I hoped, and prayed that this would be true.”

“We were just told in no uncertain terms what modality we should use”

“My saving grace in those days was that my neighbor was deaf and a friend, she could drive, and I would think, ‘she’s married, she has kids...I know Stephanie can be ok”
LOOKING BACK AT MY OWN JOURNEY...
WHAT DID IT ‘FEEL LIKE’ BACK THEN?

- **Parent – to – Parent Support**
  - Methodology War in full swing
  - Seen as an ‘add-on’ to the system

- **Systemic Parent Involvement**
  - No other parents
  - Main issue was representing the *late I.D.* experience
  - Moments when I felt all alone
    - “…and the eradication of deafness is at hand” (resounding applause)

- On the positive side -
  - Great support from professionals who were open to parental involvement
“There are many people who think they want to be matadors, only to find themselves in the ring with 2000 pounds of bull bearing down on them, and then discover that what they really wanted was to wear tight pants and hear the crowd roar.” – T. Pearce
PART 2—CURT—WHERE WE ARE
WHERE WE ARE

1. **Conditions for success** of parent-to-parent support programs

2. **Examples** of H&V programs demonstrating these aspects

3. **Lessons learned** in developing parent-to-parent support programs
CONDITIONS FOR SUCCESS: PARENT-TO-PARENT SUPPORT PROGRAMS

- **Credibility:** By parents, for parents

- **Use-ability:** Offering different forums for support (phone, newsletter, workshops, meetings, conferences, informal, social)

- **Applicability:** Choosing topics “where the rubber meets the road”
CONDITIONS FOR SUCCESS, continued

- **Dependability**: Consistency

- **Realistically**: Will require funding or an institutional sponsor

- **Replicability**: TRAINED parents in every state
EXAMPLES OF H&V PROGRAMS DEMONSTRATING THESE ASPECTS

- Wisconsin
- Nebraska
- Wyoming
- Minnesota

LESSONS LEARNED

- Create support systems outside other agencies/bureaucracies/organizations
- Utilize existing local and regional resources
- Build or adapt a model of support specific to a region or locality
- Design multiple ways to deliver information and support
ADVANTAGES OF PARENT SUPPORT MODELS THAT EXIST OUTSIDE OF OTHER SYSTEMS

 “Age limited” systems: EHDI, Part C, Part B

 Professional support systems: medical, early intervention, school systems

 Philosophical systems/communication choice
UTILIZE EXISTING LOCAL AND REGIONAL RESOURCES

- Don’t reinvent the wheel
- Don’t allow your agency’s budgetary or time limitations stand in the way of success
- Do collaborate and relinquish control

A brief history of parent support in Minnesota:
- Family Support Connection (2001)
- Expansion to outstate region (2006)
- Affiliation with Hands & Voices (2006)
- Integrated part of state EHDI system (2007)
BE SPECIFIC TO A REGION OR LOCALITY’S DEMOGRAPHICS

  - Accessibility of professional and educational services

- Home language/culture
  - Materials and media specific to language/culture groups
  - Parent mentors from language/culture groups
