Understanding Hearing Screening Results

The staff at the hospital where your baby was born gave you this booklet because your baby did not pass the hearing screening conducted at the hospital. This does not mean that your baby has a hearing loss. But it does mean that it is very important to find out for sure. Of newborns that do not pass the screening in the hospital, many will be determined to have normal hearing. A small number will have hearing loss. For those with hearing loss, getting help early in life (by six months of age) can significantly improve their chance of developing speech and language normally.

If your baby did not pass the screening in the hospital, you should follow the recommendations that were made in the hospital. Keep in mind that there is a good chance that your baby has normal hearing. But if she/he does not, you can know that you have already taken the first steps towards doing all that you can to help her/him by finding out early.

Depending on how the hospital where your baby was born has set up their hearing screening program, they will recommend either a re-screening or a diagnostic assessment to be completed when your baby is just a few weeks older. A re-screening usually involves a repeat of the same or a very similar procedure that was used in the hospital. The re-screening may be completed at the hospital on an outpatient basis, or in the office of an audiologist, an ear, nose and throat physician, or a pediatrician.

An audiologist will complete a diagnostic assessment. This assessment will involve more comprehensive testing than a screening. More information on diagnostic assessment by an audiologist will be discussed in detail later in this guide.

How to Use This Guide

Purpose

The purpose of this guide is to provide you with information about audiology resources in your area. Audiologists are professionals who are licensed in the state of Missouri as audiologists. They have a Master’s degree and are specialists in the area of hearing. Audiologists are qualified to administer hearing screening, hearing evaluations and dispense hearing aids.

Development

The guide was developed as a result of audiologists’ responses to a Missouri Department of Health and Senior Services survey. All audiologists in Missouri were sent a survey and asked to complete it if they provided services to newborns (age birth to three months). Those audiologists who responded to the survey were asked to describe their services and are listed in this guide.
Audiology Services

This guide includes four types of service: hearing screening, hearing diagnostic evaluation–limited, hearing diagnostic evaluation, and hearing aid fitting and dispensing.

Hearing Screening
Hearing screening is a service that is very similar to what was completed in the hospital. It is very important for you to know that, in most cases, hospitals who recommend re-screening for those newborns who do not pass in the hospital will also provide you with information on where to obtain the re-screening. In many cases, newborns return to the hospital of birth for the re-screening. If this is not the case, audiologists who offer re-screening are indicated with an “R.”

Diagnostic Testing–Limited
Limited diagnostic testing may be conducted by an audiologist on some newborns, especially in rural areas. This service includes some tests that are beyond screening measures, but does not include all tests that are necessary to completely diagnose the severity and type of hearing loss. Normal hearing can usually be determined with this group of tests. Newborns that actually have hearing loss will be referred on for diagnostic testing. Audiologists who offer diagnostic testing–limited are indicated with a “DL.”

Diagnostic Testing
Diagnostic testing will be conducted on newborns that do not pass the initial or re-screening. Some hospitals operate hearing screening programs that refer newborns directly to diagnostic testing if they do not pass in the hospitals. Diagnostic testing is conducted by an audiologist and includes several different tests. This battery of tests will determine if your baby has a hearing loss, it will approximate the degree or severity of the loss, and enable audiologists to make recommendations about what to do next. The audiologists who conduct diagnostic testing on newborns are indicated with a “D.”

Selection and Fitting of Amplification
Amplification is another name for hearing aids or other devices that enhance hearing abilities. Audiologists who select and fit hearing aids for newborns are indicated with an “S.”

Determining your Geographical Area
A map of Missouri is included on page 6. On this map, Missouri is divided into seven different regions with the borderlines being made up of county lines. You can determine which geographic region you live in by finding your county on the map. Audiologists are listed in groups according to the location of their office or facility. For example, if you live in the central region, audiologists who are listed in the
central section of the listing are most likely to be near you. Keep in mind that if you live near the border of an area, an audiologist located in the neighboring region may actually be closer to you.

**Listings**

Beginning on page 6, audiologists are listed according to their location. In this section, the facility that employs the audiologist is listed first. All audiologists employed at that facility are listed after the name of the facility. For your convenience, an alphabetical listing of audiologists is included at the end of the resource guide.

**Service Coordination and Funding**

You may be eligible for service coordination or funding of services through the Missouri Department of Health and Senior Services, Bureau of Special Health Care Needs or the Missouri Department of Elementary and Secondary Education, First Steps Program. The Bureau of Special Health Care Needs program helps families of children with serious medical conditions (including hearing loss) get treatment related to their child’s condition. Assistance includes diagnostic and treatment services. The program goal is to give physical and emotional support to families.

First Steps is Missouri’s response to Public Law 102-119 (formerly Public Law 99-457, a 1986 federal law). The Missouri Department of Elementary and Secondary Education is the lead agency for developing and monitoring this system of early intervention for children with disabilities, birth to age three, and their families. First Steps aspires to provide coordinated services for Missouri families as conveniently as possible. Participation in First Steps is voluntary and is intended to help families:

1. Understand their children’s special needs;
2. Obtain the help they desire to deal with situations that could interfere with their children’s growth and development; and
3. Provide the best conditions for their children’s growth and development.
Central Missouri Area Facilities / Audiologists

Services: R=Re-Screening; DL=Diagnostic Testing – Limited; D=Diagnostic Testing; S=Selection and Fitting of Amplification

Audrain Medical Center
620 E. Monroe
Mexico, MO 65265
(573) 582-8700
*Services: R
   Allard, Brad
   Stanley, Kim

Boone Hospital Center
1600 E. Broadway
Columbia, MO 65201
(573) 815-3502
*Services: R, D
   Allard, Brad
   Guillory, Lisa

Jefferson City Medical Group
ENT/Sinus Surgery
1241 W. Stadium Blvd.
Jefferson City, MO 65109
(573) 556-7708
*Services: R
   Hampshire, Jaime

Missouri School for the Deaf
505 E. 5th Street
Fulton, MO 65251
(573) 592-2543
*Services: R, DL, S
   Burco, Alison

Susie Early, M.D.
303 N. Keene St., Ste. 401
Columbia, MO 65201
(573) 874-6984
*Services: R, DL
   Strawn, Charlotte

University Physicians Audiology
1101 Hospital Dr.
Columbia, MO 65212
(573) 882-5194
*Services: R, D, S
   Bauer, Karen
   Sanderson, Christina
   Zynda, James
   Rawn, Caitlin
   Hahn, Morgan
Kansas City & Surrounding Area Facilities / Audiologists

Services: R=Re-Screening; DL=Diagnostic Testing – Limited; D=Diagnostic Testing; S=Selection and Fitting of Amplification

Children’s Mercy Hospital
2401 Gillham Rd.
Kansas City, MO  64108
(816) 234-3677
*Services: D, S
Baum, Jamie
Butler, Lisa
Fleener, Rhonda
Ford, Joey
Lawlor, Pat
Martin, Loree
Miller, Denise
Ralston, Sherry
Redding, Ashleigh
Turner, Hilary
Varier, Laura

ENT Associates of Greater Kansas City
1004 Carondelet Dr., Ste. 450
Kansas City, MO  64114
(816) 942-7200 Ext. 63
*Services: R
Bramlett, Kim

Midwest Ear Institute
4200 Pennsylvania Ave., Ste. 100
Kansas City, MO 62111
(816) 932-1660
*Services: R, D, S
Frazier, Heidi
Hatfield, Ann
Zlomke, Sarah
Levy, Erin
Lewis, Kristen
Campbell, Cole

Midwest Medical Specialists, P.A.
5400 N. Oak, #203
Kansas City, MO  64118
(816) 454-0666 Ext. 118
*Services: R, D, S
Schumacher, Jennifer
Ward, Erika
Northeast Missouri Area Facilities / Audiologists

Services: R=Re-Screening; DL=Diagnostic Testing – Limited; D=Diagnostic Testing; S=Selection and Fitting of Amplification

Dr. J. Paul Hunt, Audiologist
700 W. Jefferson
Kirksville, MO  63501
(660) 626-2777
*Services: R, DL
   Hunt, J. Paul

Northwest Missouri Area Facilities / Audiologists

Services: R=Re-Screening; DL=Diagnostic Testing – Limited; D=Diagnostic Testing; S=Selection and Fitting of Amplification

Heartland ENT Specialists
5301 Faraon, Suite 160
St. Joseph, MO  64506
(816) 671-4840
*Services: R
   Roesle, Sue
   Langford, Angela
St. Louis & Surrounding Area Facilities / Audiologists

Services: R=Re-Screening; DL=Diagnostic Testing – Limited; D=Diagnostic Testing; S=Selection and Fitting of Amplification

Cardinal Glennon Children’s Hospital
1465 S. Grand Blvd.
St. Louis, MO 63104
(314) 577-5671
*Services: R, D, S
  Marciniak, Kenny
  Cabonce, Maria
  Duncan, Sarah
  Mange, Carole
  McAlister, Julie
  Ortmann, Laura

Hearing Consultants, Inc./SSM Neurosciences Institute Division of Audiology
12277 DePaul Drive, South Bldg., Suite 403
St. Louis, Mo 63044
(314) 344-7989
*Services: R, D, S
  Chandler, Sarah
  Fenton, Lauren
  Mishler, Tracy

Center for Hearing & Speech
9835 Manchester
St. Louis, MO 63119
(314) 968-4710
*Services: R, D, S
  Noble, Laura
  Haider, Kristen

Hearing Health Care
15825 Manchester Rd., 209
Ellisville, MO 63011
(636) 391-9622
*Services: R, S
  Bergmann, Carol
  Benner, Alison
  Edward, Colleen

Central Institute for the Deaf
825 S. Taylor
St. Louis, MO 63110
(314) 977-0104
*Services: R, D, S
  Davidson, Lisa
  Holtman, Kathy
  Richter, Marie
  Rice, Mary

Jefferson Memorial Hospital
Hwy 61-67 South,
P.O. Box 350
Crystal City, MO 63019
(636) 933-1873
*Services: R, D
  Taylor, Jennifer

Ear Care & Skull Base Surgery
14825 N. Outer 40, Ste. 310
St. Louis, MO 63017
