

# DESKTOP VIDEOCONFERENCING: AN OVERVIEW OF THE MARKET AND TECHNOLOGY

A free webinar from the Telehealth Technology Assessment Center in cooperation with the Northwest Regional Telehealth Resource Center

**October 22, 2010 | 12:00 - 1:00 PM PST**

Presentation and discussion led by Garret Spargo, Director of the TTAC

**TANDBERG**

#### THIS WEBINAR IS FOR:

- Physicians who are interested in using videoconferencing from the desktop
- Professionals looking for information on what software is available, what it does, and where its limitations are
- Telehealth program administrators

#### LEARN ABOUT:

- Standards-based and consumer-grade desktop technologies: what they are, how they work
- Required equipment to implement various desktop systems
- How to educate your patients and providers about this new technology
- Concerns about HIPAA compliance, and what that might mean for your organization

#### REGISTER:

- Email [info@telehealthtac.org](mailto:info@telehealthtac.org) for registration information
- Visit [www.telehealthtac.org](http://www.telehealthtac.org) and [www.nrtrc.org](http://www.nrtrc.org) for more information
