

# Early Intervention for Children with Hearing Impairment: From A to Z

Beth Evans, MA, CED • Dorie Noll, MSDE, CED, LSLs Cert AVEd

FRIDAY, NOVEMBER 4, 2011

This course is designed for teachers, speech-language pathologists and early childhood specialists who work with children who are deaf and hard of hearing, age birth-3. Providers will find this workshop to be a general overview of best practices in early intervention in deaf education. Participants will discuss strategies to aid in their practice of coaching families through routine-based experiences and help them maximize communicative interactions with their children.

Participants will be able to summarize the process from referral to services, describe appropriate services for a young child with hearing impairment, understand audiologic test results and their significance regarding a child's access to sound, identify and give examples of resources available to work with young children with hearing impairment, discuss services included in individual sessions and small group instruction and navigate the transition from Part C to Part B.

## Program Agenda

- From diagnosis to accessing services
- Audiologic services / hearing devices
- Auditory and spoken language development
- Assessments
- Using the coaching model for family support
- Group instruction
- Resources for professionals
- Transition out of birth-3 services
- Characteristics of successful early interventionists
- Classroom observations

## Tuition

**\$150** includes the one-day workshop, handouts, lunch, morning and afternoon beverages and light snack.

## Registration

Completed registration form and payment are required. We accept check, MC, VISA, Discover or purchase order. We recommend early registration. Course is limited to 20 participants.

## Accommodations

Please see reverse.
